ILR PRESENTATION

STAKEHOLDER SURVEY

We're excited to share the results of our recent user survey, a vital initiative for shaping the future of land records. This survey provides crucial insights that will guide our decision-making and strategic planning, ensuring we continue to effectively meet our users' needs.

A total of 542 users participated in the survey, encompassing a diverse group of professionals including attorneys, abstractors, surveyors, engineers, lenders, bankers, realtors, and many other stakeholders. The report is full of detailed rankings for modernization ideas and includes an appendix with all of the open-ended comments from survey participants.

For a quick review of the report, read the Executive Summary on page 2. View the full report by clicking on the button below.
